SKILLS

- Mobile QA Testing (iOS & Android) – 4+ Years
- XCUITest – 3+ Years
- Smoke & Regression Testing – 4+ Years
- Cloud Device Testing – 3+ Years
- Test Planning, Execution & Defect Tracking – 4+ Years
- Appium Automation – 4+ Years
- API Testing (Postman) – 4+ Years
- Performance & Load Testing – 3+ Years
- SQL Basics & Query Validation – 4+ Years
- CI/CD Integration – 3+ Years

EXPERIENCE

Quality Assurance & Automation Engineer, 05/2021 - Current

Capital Small Finance Bank Limited – Jalandhar, Punjab

- Collaborated with internal business units, external vendors, and development teams to plan, implement, and support software development and deployment projects.

- Provided input for documentation of new features and maintained detailed documentation for existing and in-progress software modules.
- Delivered prompt and accurate technical assistance to end users, ensuring timely resolution of issues and optimal application performance.
- Acted as a liaison between software development, QA, and service teams to identify, analyze, and resolve complex production and integration issues efficiently.
- Performed manual and automation testing using Selenium WebDriver, TestNG, and Appium, ensuring high test coverage across web and mobile banking platforms.
- Conducted API testing using Postman and load testing for performance validation.
- Designed and executed test plans, test cases, and scenarios, and accurately logged bugs and defects in detailed QA reports.
- Reviewed and validated business and technical requirements to ensure accurate testing alignment.
- Developed and optimized SQL queries using Inline Views, Dynamic SQL, and Merge statements to validate backend data and support defect analysis.
- Built tools and automated workflows to extract and aggregate log data into persistent tables, improving debugging efficiency.
- Implemented CI/CD automation pipelines using Azure DevOps, improving deployment speed and reducing manual errors.
- Conducted Salesforce QA testing using Appium, ensuring functionality, security, and UI consistency of CRM modules.
- Collaborated with vendor teams and cross-functional departments to streamline integration testing, ensuring smooth connectivity and deployment of banking services.
- Hands-on experience with Core Banking Systems (CBS), internet and mobile banking, and financial message validation for NEFT, SWIFT, and ISO 20022.

EDUCATION
